

MAINE ACE CAMP INC DISCIPLINE POLICY

In aviation, **safety** is **paramount**. This is true for everyone working in the aviation industry. During this camp it is **essential** that all students adhere to the instructions from their counselors. Treat staff and presenters in a polite and respectful manner, like you would want to be treated.

We understand that not everything can be covered with a list. Our basic rule of thumb is **if an action in any way reduces the level of safety for anyone, or if the behavior is destructive, the student's actions will be grounds for dismissal from the camp immediately, and the parent will be contacted to pickup the student, with NO REFUND of tuition**. If the action is disrespectful, discourteous, or impolite, the director will handle the issue accordingly.

We are a crucial part of the aviation industry and our desire is for of everyone involved with Maine ACE CAMP Inc to have the opportunity to learn, experience, and enjoy a camp devoted to aviation career education. However, because of a few unfortunate past experiences, it has become necessary to request all parents/guardians to sign a statement that they have reviewed our discipline policy.

Sign this statement, return with the other camp forms and thank you for your cooperation and support.
